About Us

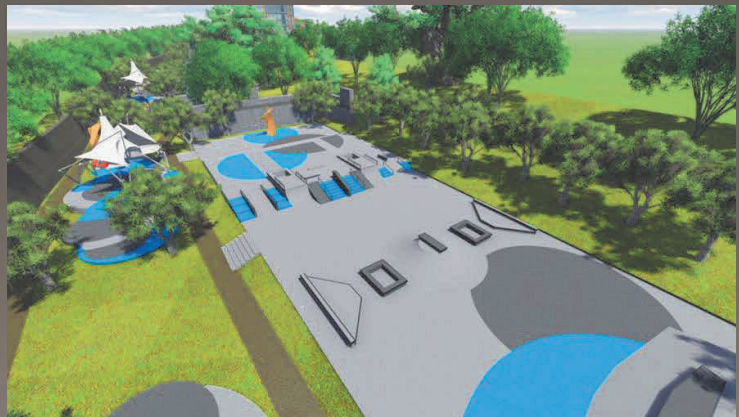

Hardcore Skateparks is a full-service design-build company specializing in the development of public and private places for skateboarding throughout the world. We can adapt to any project scope and deliver professional planning, design, cost estimating services with all the required accreditation, skill and knowledge necessary to provide a state-of-the-art landscape for skateboarding with due care and diligence

Hardcore Skateparks has created a diverse range of public and private skate parks, plazas, skate spots, bowls and landscape projects. These places have not only increased opportunities for skating, but they have contributed to the recreational and social fabric of the communities in which they are located.

Design

Hardcore Skateparks Design provides professional design services geared to create a completely custom skatepark design that is unique to your community. Our team of professional Skateboarders, BMX riders, Landscape Architects, and Graphic artists will work directly with your community to generate ideas and develop your dream park. We then provide you with high quality renderings of your design along with a fly-through video and breakdown listing the quantities of materials needed to build your park.

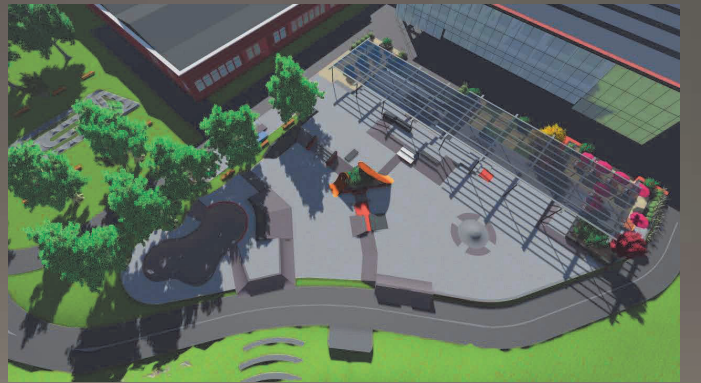

Design Phase

- PHASE 1 PROJECT PROGRAM DEFINITION
- PHASE 2 SITE ANALYSIS
- PHASE 3 CONCEPTUAL DESIGN
